

Welcome to the Woking Miniature Railway Society at Barrs Lane, Knaphill, Woking. The Railway is also known locally as Mizens Railway reflecting our previous location at Mizens Farm, now the home of Formula One team McLaren.

The overgrown tree nursery we first acquired has seen significant changes over the years mostly by design but some by reason of necessary tree removal for construction or nature and some by reason of falling specimens. The pond created in part as an attraction and to supply material for the Highlander embankment has now matured and may be viewed from passing trains or by a short walk from the main station area.

The highlander is currently being overhauled this is part of the ongoing programme of works around the site and it is hoped that this will return to use in the not to distant future.

A large proportion of the track has been replaced and as might be expected much of the signalling equipment has been replaced.

Considering the site was originally a tree nursery twenty plus years later has necessitated many of the overlarge trees being felled though a number have suffered from weather effects.

We have continued to find our Santa Specials in December are as popular as ever even though we have had to increase the price like many things.

No doubt some of you will wish to attend next year (2026), so how about putting it in your diary (9<sup>th</sup> – 11<sup>th</sup> May 2025 TBC). To advance register to be kept informed:
